

**Weston Park
Cancer Charity**

Can we count on your support?

Thank you for considering taking part in **Donate a Day for Cancer**, on behalf of your organisation.

Weston Park Cancer Charity is the only dedicated charity for the hospital and exists to create a better life for those living with and beyond cancer.

It is committed to fund things the NHS alone cannot provide and raises over £2million every year to fund;

- Practical help to those in need
- Emotional support to those in despair
- Enhanced care for those who need it most

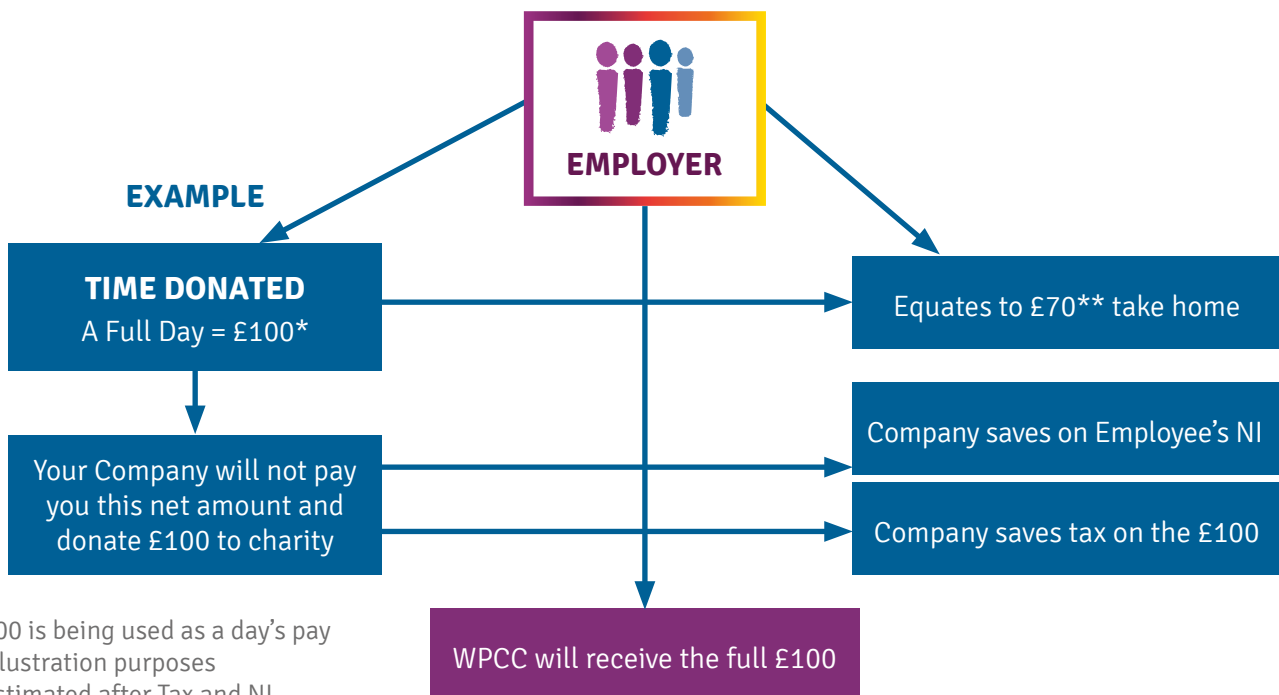

The local research it funds provides access to breakthrough treatments unavailable on the NHS and advances the wider fight against cancer.

Will you help by joining people from across South Yorkshire, North Derbyshire and North Nottinghamshire by signing your organisation up?

How does it work?

It's very simple. Simply by offering a portion of their wage from a day's work, your staff can help support the 18,000 patients who are currently under the care of Weston Park Hospital and the services they provide throughout the region.

Staff members complete a simple form and hand it to payroll to process. There's no complicated processing, no National Insurance or tax to pay on the contribution. The diagram below shows how it works:

* £100 is being used as a day's pay for illustration purposes

** Estimated after Tax and NI

To find out more, or to sign up, contact Darren Hayes, Business Development Manager.
